## SUMMARY

---

Highly motivated and results oriented Software Engineer with experience in developing and implementing backend functionalities. Proficient in Node.js development, API design and relational databases. Eager to contribute to Deloitte's dynamic team and apply skills in a fast-paced environment. Passionate about building user-centric solutions that enhance customer experience.

## SKILLS

---

- API Design and Implementation: Proficient in crafting RESTful APIs and core services to support diverse functionalities using Node.js, Python.
- Programming Languages: Node.js, Python (basic)
- Databases: PostgreSQL, familiarity with SQL concepts
- Testing: Unit testing concepts
- Soft Skills: Collaboration, communication, problem-solving, adaptability, eagerness to learn

## PROFESSIONAL EXPERIENCE

---

### Software Developer

Mar 2023 – Present

Code Your Future, Birmingham West Midlands – UK

- Designed and implemented scalable API endpoints and core services to facilitate platform functionalities, demonstrating expertise in domain object modelling and ORM technologies.
- Collaborated seamlessly with product teams, designers, and fellow engineers to innovate and deploy features aimed at enhancing user experience.
- Exhibited a passion for delivering polished end-user products through rapid implementation and iterative development cycles.
- Thrived in a dynamic environment, making informed trade-offs to ensure scalability, reliability, and maintainability of applications.
- Demonstrated proficiency in GitHub and Git core concepts for effective version control.

### Internal Auditor

Jul 2022 – Dec 2022

Advance Credit Union, Birmingham, UK

- Spearheaded customer identity verification on the ID3 Global platform, mitigating the risk of money laundering and fraud.
- Accelerated documentation processing for new members, significantly reducing a longstanding backlog and ensuring efficient customer onboarding.
- Conducted cross-referencing of customer documents for loan requests, guaranteeing compliance with organizational standards.

## EDUCATION

---

### **ALX Software Engineering Program (Remote)**

**May 2023 - Present**

ALX Africa in partnership with MasterCard foundation, Kenya

Software Engineering program with a focus on backend specialization, encompassing Bash, C, Python, JavaScript

### **Software Development Trainee**

**Mar 2022 – Mar 2023**

Code Your Future, Birmingham West Midlands – UK

Successfully completed a Bootcamp in Full-Stack web development, mastering HTML, CSS, JavaScript, React, Express Node.js, SQL, and PostgreSQL.
